

LEGEND® 1200 ARC

THE SHORT-ACTION MAGNUM OF LASER RANGEFINDERS.

In ranging distance and ballistic capability, no unit on the market packs this much power in a format this handy or easy to use. Engineered with a compact, vertical configuration, the new Legend® 1200 ARC delivers instant distance readings to 1,200 yards. With built-in ARC Bow and Rifle modes. ARC Bow mode delivers the “shoots-like” horizontal distance from 5-99 yards. ARC Rifle mode provides bullet-drop and holdover information. That’s right, the same function that requires two units from other manufacturers is right here at your fingertips. And weather is never an issue thanks to fully waterproof construction and RainGuard® HD anti-fog technology.

Legend 1200 ARC
204101 (camo)

Range: 5–1200 yards
Power/Obj: 6x 24mm

Legend 1200 ARC
204100 (black)

Range: 5–1200 yards
Power/Obj: 6x 24mm

FEATURES

Built-in inclinometer provides ARC // Pocket-size ergonomic design 6x magnification // Bow Mode – provides true horizontal distance from 5–99 yards // Rifle Mode – provides bullet-drop/holdover in inches or MOA VSI // BullsEye, Brush and Scan mode // 100% Waterproof // RainGuard® HD // Range: 5–1,200 yards // Angle range: -90° to +90° // Diopter adjustment // Carrying case, battery and neck strap included // Battery life indicator // Compatible with magnetic attachment system Posi-Thread™ battery door

VSI™ (Variable Sight-In) Feature

This Rifle Mode feature allows you to set your holdover/bullet-drop information for your rifle's zero – select between 100, 150, 200 and 300-yard sight-in distances for deadly accurate information at the push of a button. Measurements can be displayed in MOA or inches, and VSI also provides shot angle information from -90° to +90°.
